

Milestone 2: Data Model Design

Objective

Design tables and modules for employee ID card request management.

Step 1: Create Employee ID Request Table

Navigation:

Studio → Create Application File → Table

Table Name:

Employee ID Request

Fields:

- Employee Name
- Employee Email
- Department
- Request Type
- Reason for Request
- Approval Status
- Issue Date
- Expiry Date

Step 2: Create Application Menu

Application Menu:

Employee ID Management

Step 3: Create Modules

Modules Created:

- Employee Requests
- Reports

Learning Outcomes

- Created custom tables.
- Designed form fields.
- Created navigation modules.
- Organized application structure.
